

Meeting Host Email:

Subject: GCA | Cholangiocarcinoma: ICD-11 Local Meeting Invitation

Dear [NAME],

We are writing on behalf of the Global Cholangiocarcinoma Alliance (GCA). The GCA has united to establish a global voice in cholangiocarcinoma (CCA) through community collaborations and has a shared vision to raise awareness of CCA in order to improve prevention, survival, and the quality of life of patients with CCA globally.

As you know, the World Health Organization (WHO) has launched a new International Classification of Diseases (ICD), 11th revision. Our aim is to raise awareness globally among healthcare professionals of the ICD-11 and the important revisions to CCA coding it contains. Therefore, we are writing to you to ask if you would kindly consider hosting a short ICD-11 meeting in your local area and support us in our efforts to raise awareness of these changes.

Please find attached an official invitation with further details and supporting materials for your review and consideration.

If you are interested in hosting a short ICD-11 meeting in your local area, please respond to this email or kindly let us know at sesgca@scientificeducationsupport.com.

We look forward to hearing from you!

Best wishes
